

1990 CENSUS TRACT/BNA OUTLINE MAP (RECREATED)

Abbreviation Reference: BNA = Block Numbering Area  
Where international and municipio boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.  
In some cases, the highest ranking boundary is a census tract or area allocated to census tracts with a "99" suffix. An anchor symbol appeared on the 1990 maps, localizing a census tract or area.

All legal boundaries and names are as of January 1, 1990 as tabulated for the Public Law 94-171 and Summary Tape File products. The boundaries also reflect the feature network and coordinates as of the Census 2000 geographic base. Since 1990 the Census Bureau updates the base from the North American Datum of 1983 (NAD27) to the datum as of 1983 (NAD83) and the coordinate system applies to the 1990 Census data. The boundaries shown on this map are for the Census Bureau's statistical data collection and tabulation purposes only; their depiction and designation for statistical purposes does not constitute a determination of jurisdictional authority or rights or ownership or entitlement.
